@claimant®

## A risk management tool that's **simple, automated** and **on-demand 24/7**

Lamb Insurance Services has partnered with Aclaimant to offer a cloud-based, intuitive risk management platform that provides our clients with integrated safety, claims and risk management tools at no cost to your organization.

### The key benefits of the system provide a one stop shop for:

**Incident & Claim Reporting:** Submit incidents and claims in one centralized location through [Submit a Claim](#) on the Lamb website.

**Safety Reporting:** Track all risk control reporting, carrier recommendations, and supplementary programs including NY Code Rule 59 and 60.

**Claims Trending and Loss Run Updates:** Track and trend losses on demand, with automatic data updates from carriers typically on a monthly basis.
